Ankara, Turkey

3D Environment Artist with 3+ years of experience in game-ready environment production, modular assets, props, set dressing, lighting and optimization. **Worked on shipped titles** and Unreal Engine Marketplace projects, **focusing on atmosphere and environmental storytelling.**

SKILLS

- 3D Environment Art
- Level Art & Set Dressing
- Modular Asset Production
- Prop Modeling
- UV Mapping & PBR Texturing
- Lighting & Post-Process
- Asset Optimization

SOFTWARE

- Unreal Engine
- Blender
- Substance Painter
- Unity
- Photoshop
- Marmoset Toolbag
- Diversion
- Git

EDUCATION

Graphic Design - 2025
Istanbul University

Geological Engineering - 2023
Hacettepe University

LANGUAGES

Turkish Native

English Advanced

WORK EXPERIENCE

Environment Artist
OCT 2025 - Present

Althera Studios

- **Main environment artist** on *Night Record: Thin Walls*, owning environment art and level design for its post-Soviet residential apartment complex.
- Designed and built the full gameplay environment from **blockout to final level art**.
- Created modular **environment assets, props, and reusable master materials**, while integrating and adapting outsourced assets for the level.
- Shaped the project's **atmosphere**, **readability and environmental storytelling** through set dressing, lighting, post-processing and composition passes.
- Collaborated closely with the programmers to iterate and adapt the level to gameplay needs.
- Optimized gameplay level in **Unreal Engine using HISM/ISM**, adjusting texture sizes and refining material setups for better performance.

Environment/Prop Artist
NOV 2022 - JUN 2023

M11 Studios

- Created **modular environment kits, props, weapons, and gear** for *Compass of Destiny: Istanbul*.
- Designed and optimized assets using **trimsheets**, **kitbashing and custom LODs**.
- **Researched 17th century Ottoman references** to create believable materials, forms and visual details.
- Collaborated with the art team to maintain **visual consistency and technical standards** across the project.

Environment Artist
NOV 2021 - SEP 2022

Stratera Games / Part-Time

- **Designed stylized environments** and contributed to **worldbuilding and level design** for *Lighthouse Keeper.*
- Created architectural assets, props, interactables, foliage and weapons.
- Integrated and adapted outsourced assets in Unity to match the project's visual style.

Junior Environment Artist
JUN 2021 - NOV 2022

Erik Games

- Created realistic environments and asset packs for the **Unreal Engine Marketplace**.
- Developed **easy to use and flexible master materials** for customization across asset packs.
